

February 15, 2012 @ the first Presbyterian Church 620 South Grandview  
Daytona Beach Florida.

At 7:30 pm Tom McComb will be giving a presentation on Amateur  
Radio in the Church

The topic that will be covered

1. leadership in emergency communication
2. Church welfare with emergency communication
3. Display/Overview of local emergency Preparedness / communication plan
4. Overview of local emergency communication organization in the area

All are invited to attend this presentation it is free to the public, and should be an eye opener to all that attend.

You will learn valuable information on how emergency communication works in your community during an actual disaster. Also how Amateur radio plays a roll in disaster like forest fires, hurricanes, earth quakes, and all other types of disaster.

Also how many churches across this great land have adopted Amateur radio as part of the churches well being.

There will be coffee and donuts served afterwards; so mark your calendar and be sure to attend

Thank you  
D.B.A.R.A
